1. Introduction

1.1 Document Purpose

This project report documents the design, development, and implementation of the **CareConnect Platform**. It explains the system architecture, functional and non-functional requirements, database design, and future enhancements. The document is prepared based on the approved **Software Requirement Specification (SRS)**. [Project Background](#)

CareConnect is a centralized digital platform designed to connect **donors, beneficiaries, and administrators** in a transparent, secure, and efficient manner. The platform aims to streamline the process of donation, request management, and fund distribution while ensuring accountability and trust among all stakeholders. CareConnect leverages modern web technologies and a role-based architecture to manage social welfare activities digitally.

1.2 Project Background

Many individuals and organizations are willing to contribute to social causes but face challenges such as lack of transparency, misuse of funds, and difficulty in identifying genuine beneficiaries. Traditional donation systems often rely on manual processes, which are inefficient and prone to errors.

CareConnect addresses these challenges by offering a **digital, auditable, and role-based platform** where donors can contribute securely, beneficiaries can request assistance, and administrators can monitor and regulate the entire process.

1.3 Aim & Objectives

Aim:

To develop a secure, scalable, and transparent social welfare management platform that bridges the gap between donors and beneficiaries.

Objectives:

- To enable secure donor registration and donation processing
- To allow beneficiaries to submit and track aid requests
- To provide administrators with control and monitoring capabilities
- To ensure transparency and accountability in fund utilization

2. Business Requirements Overview

The CareConnect system fulfills the following business requirements:

- Digital onboarding of donors, beneficiaries, and administrators
- Secure donation and transaction management
- Request verification and approval workflow
- Real-time tracking of donations and requests
- Centralized monitoring and reporting by administrators
- Improved transparency and trust in social welfare activities

The platform improves efficiency, trust, and transparency in the service industry.

3. Functional Requirements Overview

The Stock Platform consists of the following modules:

1. Admin Module
2. Donor Module (Individual & Organisation)
3. Beneficiary Module

3.1 Admin Module

The Admin module provides complete control over the CareConnect platform.

Key Functions:

- Admin authentication and role management
- Verification and approval of beneficiary requests
- Monitoring donor contributions and transactions
- Managing users (activate, suspend, or deactivate)
- Generating system reports and audit logs
- Ensuring compliance and fraud prevention

3.2 Donor Module (Individual & Organisation)

- Donor registration and secure login
- Browsing verified beneficiary requests
- Making donations (funds/resources)
- Viewing donation history and receipts
- Tracking impact and request status

3.3 BeneficiaryModule

- Beneficiary registration and authentication
- Submitting assistance requests
- Uploading verification documents
- Tracking request approval and fulfillment status
- Viewing received aid history

4. Non-Functional Requirements

- **Security:** Authentication, authorization, encrypted data
- **Scalability:** Supports increasing users and transactions
- **Performance:** Fast response time for requests and donations
- **Reliability:** High availability and fault tolerance
- **Usability:** Simple, intuitive user interface
- **Maintainability:** Modular and extensible architecture

5. Use Case Diagram

The use case diagrams describe interactions between actors and the system.

5.1 . Admin

2. Donor

3. Beneficiary

6. Database Design

6.1 RoleTable

Column Name	Data Type	Constraints	Default	Extra
rid	INT	PRIMARY KEY, NOT NULL	NULL	auto_increment
rname	ENUM	NOT NULL, UNIQUE	NULL	
created_at	TIMESTAMP	—	CURRENT_TIMESTAMP	

6.2 User Table

Column Name	Data Type	Constraints	Default	Extra
uid	INT	PRIMARY KEY, NOT NULL	NULL	auto_increment
rid	INT	NOT NULL, FOREIGN KEY	NULL	
email	VARCHAR(100)	NOT NULL, UNIQUE	NULL	
mobile	VARCHAR(15)	NOT NULL, UNIQUE	NULL	
password	VARCHAR(255)	NOT NULL	NULL	
approved	BOOLEAN	—	FALSE	
is_active	BOOLEAN	—	TRUE	
created_at	TIMESTAMP	—	CURRENT_TIMESTAMP	
updated_at	TIMESTAMP	—	CURRENT_TIMESTAMP	on update

6.3 Individual Donor

Column Name	Data Type	Constraints	Default	Extra
donor_id	INT	PRIMARY KEY, FOREIGN KEY	NULL	—
first_name	VARCHAR(50)	NOT NULL	NULL	—
last_name	VARCHAR(50)	NOT NULL	NULL	—
address_line	VARCHAR(150)	—	NULL	—
city	VARCHAR(50)	NOT NULL	NULL	—
state	VARCHAR(50)	NOT NULL	NULL	—
pincode	VARCHAR(10)	NOT NULL	NULL	—
created_at	TIMESTAMP	—	CURRENT_TIMESTAMP	—

6.4 OrganisationDonor Table

Column Name	Data Type	Constraints	Default	Extra
org_id	INT	PRIMARY KEY, FOREIGN KEY	NULL	—
org_name	VARCHAR(100)	NOT NULL	NULL	—
org_type	VARCHAR(50)	NOT NULL	NULL	—
reg_no	VARCHAR(50)	UNIQUE	NULL	—
contact_person	VARCHAR(50)	NOT NULL	NULL	—
address_line	VARCHAR(150)	—	NULL	—
city	VARCHAR(50)	NOT NULL	NULL	—
state	VARCHAR(50)	NOT NULL	NULL	—
pincode	VARCHAR(10)	NOT NULL	NULL	—
certificate_url	VARCHAR(255)	—	NULL	—
created_at	TIMESTAMP	—	CURRENT_TIMESTAMP	—

6.5 Beneficiary table

Column Name	Data Type	Constraints	Default	Extra
beneficiary_id	INT	PRIMARY KEY, FOREIGN KEY	NULL	—
type	VARCHAR(50)	NOT NULL	NULL	—
name	VARCHAR(100)	NOT NULL	NULL	—
reg_no	VARCHAR(50)	UNIQUE	NULL	—
contact_person	VARCHAR(50)	NOT NULL	NULL	—
mobile	VARCHAR(15)	NOT NULL	NULL	—
email	VARCHAR(100)	—	NULL	—
address_line	VARCHAR(150)	—	NULL	—
city	VARCHAR(50)	NOT NULL	NULL	—
state	VARCHAR(50)	NOT NULL	NULL	—
pincode	VARCHAR(10)	NOT NULL	NULL	—
certificate_url	VARCHAR(255)	—	NULL	—
verified	BOOLEAN	—	FALSE	—
created_at	TIMESTAMP	—	CURRENT_TIMESTAMP	—
updated_at	TIMESTAMP	—	CURRENT_TIMESTAMP	on update

6.6 Admin Table

Column Name	Data Type	Constraints	Default	Extra
admin_id	INT	PRIMARY KEY, FOREIGN KEY	NULL	—
name	VARCHAR(50)	NOT NULL	NULL	—
admin_role	VARCHAR(50)	NOT NULL	NULL	—
created_at	TIMESTAMP	—	CURRENT_TIMESTAMP	—

6.7 Request Table

Column Name	Data Type	Constraints	Default	Extra
request_id	INT	PRIMARY KEY, NOT NULL	NULL	auto_increment
beneficiary_id	INT	NOT NULL, FOREIGN KEY	NULL	
request_type	VARCHAR(50)	NOT NULL	NULL	
description	TEXT	—	NULL	
quantity	INT	CHECK (>0)	NULL	
status	ENUM	—	OPEN	
approved_by_admin	BOOLEAN	—	FALSE	
created_at	TIMESTAMP	—	CURRENT_TIMESTAMP	

6.8 Donations Table

Column Name	Data Type	Constraints	Default	Extra
donation_id	INT	PRIMARY KEY, NOT NULL	NULL	auto_increment
request_id	INT	NOT NULL, FOREIGN KEY	NULL	—
donor_id	INT	NOT NULL, FOREIGN KEY	NULL	—
donation_type	VARCHAR(50)	NOT NULL	NULL	—
quantity	INT	CHECK (>0)	NULL	—
is_anonymous	BOOLEAN	—	FALSE	—
status	ENUM	—	INITIATED	—
donated_at	TIMESTAMP	—	CURRENT_TIMESTAMP	—

6.9 Verification Log Table

Column Name	Data Type	Constraints	Default	Extra
log_id	INT	PRIMARY KEY, NOT NULL	NULL	auto_increment
entity_type	VARCHAR(50)	NOT NULL	NULL	—
entity_id	INT	NOT NULL	NULL	—
status	ENUM	NOT NULL	NULL	—
verified_by	INT	NOT NULL, FOREIGN KEY	NULL	—
verified_on	TIMESTAMP	—	CURRENT_TIMESTAMP	—

6.10 Documents table

Column Name	Data Type	Constraints	Default	Extra
doc_id	INT	PRIMARY KEY, NOT NULL	NULL	auto_increment
user_id	INT	NOT NULL, FOREIGN KEY	NULL	—
file_url	VARCHAR(255)	NOT NULL	NULL	—
doc_type	VARCHAR(50)	NOT NULL	NULL	—
uploaded_at	TIMESTAMP	—	CURRENT_TIMESTAMP	—

- **Beneficiary DashBoard :**

The image shows a web application interface for a 'Beneficiary Dashboard'. At the top, a dark blue header contains the 'CareConnect' logo on the left and 'BENEFICIARY' with a 'Logout' button on the right. Below the header, the main content area has a light blue background. It features a 'Beneficiary Dashboard' title with a 'Welcome, User' message and two buttons: 'Edit Profile' and 'New Request'. Below this, there are four colored boxes representing statistics: 'Total Requests' (0, blue), 'Open' (0, yellow), 'Approved' (0, green), and 'Verified' (No, purple). At the bottom, a section titled 'My Help Requests' shows a message: 'You haven't created any requests yet.'

The image shows a 'Create Help Request' form modal. The modal has a white background and a light blue border. It features a title 'Create Help Request' and a subtitle 'Provide accurate details so donors can help effectively.' Below the subtitle, there are three input fields: 'Request Type' (a dropdown menu with 'Select a category' as the placeholder), 'Description' (a text area with the placeholder 'Explain what you need and why it is required.'), and 'Quantity' (a text input field). At the bottom of the modal, there are two buttons: 'Submit Request' (green) and 'Cancel' (grey).

10. Conclusion & Future Scope

CareConnect is designed to provide a secure, transparent, and efficient digital platform for managing social welfare activities by connecting donors, beneficiaries, and administrators. The system streamlines the entire lifecycle of aid management, from beneficiary registration and request creation to donation processing and administrative verification. By leveraging a role-based architecture, microservices-oriented backend, and intuitive user interface, CareConnect ensures accountability, traceability, and ease of use for all stakeholders.

The platform reduces manual intervention, minimizes misuse of resources, and enhances trust between donors and beneficiaries. CareConnect successfully demonstrates how modern web technologies can be applied to address real-world challenges in social welfare and charitable resource distribution

Future Enhancements:

- **Online Payment Gateway Integration:** Enable secure online payments through UPI, credit/debit cards, and net banking.
- **AI-Based Fraud Detection:** Use machine learning models to identify suspicious activities, fake requests, or misuse of funds.
- **Analytics & Reporting Dashboard:** Provide advanced analytics to visualize donation trends, request fulfillment rates, and impact assessment.
- **NGO & Government Integration:** Integrate with NGOs and government welfare schemes for wider reach and verified beneficiary onboarding.
- **Real-Time Notifications:** Implement SMS, email, and push notifications for request updates and donation **confirmations**.
